Track & Facility Rules

ENTER AT OWN RISK. THE JACKSON R/C RACE CLUB IS NOT RESPONSIBLE FOR ANY INJURY OR ANY LIABILITY.

We promote family oriented racing for both adults and children. Alcoholic beverages, profanity, and inappropriate behavior will not be tolerated. Fighting, foul language, or any type of misconduct will not be tolerated; membership can and will be revoked at the discretion of the Board of Directors, and all race entry and club membership fees paid by the offending member(s) will be forfeited.

Pick-up your pit area and all of your trash, it is your responsibility, we are not your maid!

You **MUST** be a member of ROAR to practice or otherwise operate a radio controlled vehicle in this facility- although there may be special occasions when this is waived to promote and encourage new drivers to get into the sport. In any event you **MUST** have read and signed a copy of the Release and Wavier of Liability.

R/C cars may not be operated (driven) outside the confines of the track. Only registered racers may drive their cars on the track. These rules take effect the moment registration is called for.

Never drive in the reverse direction of travel on the track, for ANY reason.

Transmitters may not be turned on for any reason during practice without the matching frequency clip.

During and in between races, transmitters may not be turned on for any reason unless the driver is in that race or has permission from the race director. Turning your transmitter on in the pits will result in a disqualification from the race.

There is a 5-car minimum to make a "class". Exceptions are made only when the racers are able (in advance) to get additional racers to corner marshal for the entire event.

You are allowed only one person in your pit during the qualifying rounds and a maximum of two during the main events. There are no exceptions to this; this is for the safety of the pit crews, and everyone in pit lane.

Immediately after your race, return you car/truck to the impound area (or suitable safe area), return you transponder to the transponder rack and go to your marshaling position. This includes DNF (Did Not Finish) & DNS (Did Not Start) cars as well. The next race will not start until all transponders from the previous race are returned and all corner marshals are in place. Anyone delaying this process will have one lap deducted from his or her best qualifying time. Repeat offenders will have one lap deducted from their main race. The only exception to this rule is when the driver has a designated assistant to perform their duties and has informed the race director in advance.

After a race, you will have 3 minutes to return transmitter, transponder, and car/trucks to their areas and take your marshaling position. A one-lap penalty will be deducted from your best qualifier or main.

Corner marshals will not be smoking, drinking, eating, talking to others, and talking on cell phones or anything that will slow reaction times.

All drivers are required to corner marshal for the race immediately following his or her race, or otherwise designated race. You will be docked a lap for failure to marshal your assigned corner.

Watch Your Corner, not the race. The drivers are counting on you to be alert. Use your best efforts at all times. Corner marshals are NOT allowed to repair any car failing on the track if it will interfere with the marshalling of other cars. Cars re-entering the track must do so at the point of exit and ONLY if not in front of or interfering with any other car in that race. (Continued on page 6)

During the qualifiers your starting positions (also called a grid) are based on your car/truck number. Prior to the start of each race the Race Director will call out the grid. During the mains your starting position is based on your best qualifying time and will be announced at the beginning of your main.

Numbers must be used on the cars/trucks. At least three numbers are to be used on each car/truck. Place one on the front window and one on each side of the car/truck. If we cannot see the number on your car/trucks we cannot guarantee an accurate lap count.

Any and all racing and chassis rules may be checked at random by the Race Director or Track Official.

Transponders are to be mounted as far forward as possible inside the car/truck body behind the front shock tower. Do not mound them in the vertical position they must be mounted flat and so that the nipple does not get broken off in the event of a crash. Transponders are the responsibility of the driver not the race directors or any other person.

At the end of the race the Race Director will announce "Finish the lap your on." You should continue racing until you pass under the lap counting loop and pull over out of the way of the cars/trucks still finishing the race. Cars/trucks are NOT to take an extra lap after the finish.

No smack talking, hitting, stomping, or any other misconduct on the drivers' stand. You will receive a one-lap penalty in your best qualifier or main. If it happens again you will be disqualified from the race.

Corner cutting: a ten second penalty in a qualifier, or a one-lap penalty in A-main. If the driver stops in the area of the infraction and allows the car that was immediately behind him when the corner was cut to pass, no penalty is applicable.

If you fail to abide by these rules you will be asked to leave. Refunds will not be issued under any circumstances.

Thanks for acknowledging our rules and regulations and we hope to see you on the track!

I HAVE READ THE TRACK & FACILITY RULES, FULLY UNDERSTAND THEM, AND AGREE TO ABIDE BY THEM AT ALL TIMES, AND DURING ALL EVENTS.
